

BUILD['22]

The Data Cloud Dev Summit

2 Days | 20+ Sessions | Hands-on Labs

Calling all developers, data engineers, and data scientists! Join us for a two-day virtual event packed with demos, AMAs, and hands-on labs created by builders, for builders. Immerse yourself in improving your apps, data pipelines, machine learning workflows, and more—then meet with your peers at one of 15+ in-person BUILD.local events.

NOVEMBER 15-16 | 10 AM - 3 PM PT

Engage in Product Deep Dives, Demos, Labs and AMAs

Spark, Python, Streamlit, Native Apps. Explore these topics and more in our 20+ sessions. Attend virtual labs and interact with data experts and speakers online, then meet other community members in-person at a BUILD.local event in 15+ cities worldwide.

WHAT YOU'LL LEARN

Dive deep into best practices for building on the Data Cloud including some of the newly announced developer features

App Architectures

Build managed and connected apps, or use Snowflake primitives to deploy apps natively inside a customer's Snowflake account.
